

Hi to the Anglican Parish of Sherwood,

We just wanted to say a big thank you for your amazingly generous donation through your Parish' annual trivia night! Your donation is helping **transform the lives of girls in Sierra Leone and Uganda**, and we couldn't be happier to have you as part of the One Girl tribe.

You've contributed to amazing work empowering girls in programs such as our One Girl Scholarships and Business Brains Training.

One Girl Scholarships

We don't just pay the school and exam fees of our Scholarship recipients – a donation of \$300 covers this and more! We are also able to equip a girl with everything they need to attend school for a year, including school uniforms, shoes and a school bag.

Business Brains Training

High rates of unemployment in Sierra Leone mean that most girls won't be offered a typical 'job' when they leave school, which is why One Girl's Business Brains training is so important. With \$100 we can equip a girl with the business skills and financial literacy required to set up their own small businesses so they can help support themselves and their families while they're studying, and also after they graduate.

Enabling a girl to receive an education is to give her a life-changing opportunity. For every year she can stay in school, her income will increase between 10 and 25%. And for every dollar she earns, she'll reinvest 90% of it back into her family. She can marry later (rather than being forced into marriage as a child) and choose to have fewer children. And as those children grow, she can educate them too.

You have done a wonderful thing.

Do you mind me asking what prompted your donation to One Girl? I'm always excited to receive feedback to ensure we continue to grow and improve as an organisation. And if you ever want to know anything about the work we do, please don't hesitate to get in touch!

Thanks again, Larissa Croom
